The cutting edge of technology in your hand

The new M-BT Advance and Biometric remote controls can be adapted to the latest encoding systems that exist in the market, offering a longer range, a new design and the option for biometric authentication.

INCREASED SECURITY VIA FINGERPRINT

M-BT BIOMETRIC

\ **Greater security and personalisation**, with activation via fingerprint. Allows exclusive access for up to 50 different users with fingerprint recognition.

SOFTWARE AND TECHNOLOGY

\ **The JMA REMOTE PRO APP** offers guided copying of remotes via Bluetooth or by side-by-side copying. The application makes it possible to read and save copied remotes into a database, as well as to generate Rolling Code remotes without the original remote present.

\ **The new M-BTs** allow the copying of Beninca® TOGO® VA ARC, Cardin® S504/S508 models, both 128-bit, as well as NICE® ON and their customisations.
